

Offers for Joint Bachelor of Arts (JBA) with subsubjects in other departments:

(J.B.A.) with a subsubject in **computer science (Informatik)**:

Important: Participation in the O-Phase of the Computer Science Student Council (D120)

Registration under: <https://anmeldung.d120.de/ophase/winter25>

and on the websites of the student council with further information:

<https://www.d120.de/neu-im-studium>

<https://www.d120.de/ophase>

Important preparatory courses:

There you will find information about the computer science student council's **preliminary programming course**.

<https://www.d120.de/vorkurs>

The preliminary course will be streamed live, but can also be viewed again as a recording if you miss it:

<https://m.youtube.com/@d120de/streams>

There is also an **online mathematics preparatory course** that you can enrol in at any time at:

<https://vorkurs.mathematik.tu-darmstadt.de/moodlevorkurs/?redirect=0>

If you have any **questions** about the orientation phase (or to the preliminary programming course), please contact the student council at:

<https://www.d120.de/de/fachschaft/kontakt>

Please direct any **questions** regarding the preparatory mathematics course to:

vorkurs@mathematik.tu-darmstadt.de

Please direct general questions about computer science to the computer science academic advisory service at:

beratung@informatik.tu-darmstadt.de

You can also find a lot of information from the Student Advisory Service in the Moodle course (registration possible without TU-ID (as a guest)) under:

<https://moodle.informatik.tu-darmstadt.de/course/view.php?id=215>

Further information on computer science:

The central first semester course in Computer Science at TU Darmstadt is FOP: Functional and Object-Oriented Programming Concepts. It is intended that you take this module in the first semester, i.e. the coming winter semester 2024/25. This course starts at full speed from the very first week!

You can find the Moodle course for FOP here:

<https://moodle.informatik.tu-darmstadt.de/enrol/index.php?id=1777>

You can enrol yourself. Do this immediately, take a close look at the information provided there and follow the instructions (especially for enrolment in TUCaN). If you would like to play around before the start of the lecture period and thus facilitate your entry into the FOP, you will find a "playground" here:

<https://moodle.informatik.tu-darmstadt.de/course/view.php?id=1028>

(J.B.A.) with a subsubject in **economics**:

01-00-ET02-ov Einführung in das Studium Joint Bachelor of Arts - Teilfach Wirtschaftswissenschaften

Dienstag 07.10.2025 08:30 - 09:40 in S3 | 13 Raum 30

Dipl.-Wirtsch.-Ing. Andrea Krolkowski

Important notice for students of an academic programme **Teaching's degree**:

If you are a first-year student of an academic programme Teaching's degree (LaG) or (B.Ed. / M.Ed.), the Centre for Teacher Education (ZfL) and the student representatives have special orientation offers ready for you **in the week from 29 September to 03 October** (www.zfl.tu-darmstadt.de/owo).

One more important information about your stay at the university during the orientation week:

Unfortunately, it is **not possible** to pay with cash in the student canteen. Therefore, we recommend that you have your TU ID (see checklist) activated as soon as possible before the start of the OWO, so that you can receive your Athena card (see checklist). Both are possible completely online. If you do not have an Athena Card, you can also obtain a guest card temporarily and for a deposit at the student canteen checkouts and the vending machines in the student canteen entrance area.
